Safety is no accident *Always fit a Flettner*

Good ventilation is vital

Owners and operators of commercial vehicles have a duty of care to their employees and a legal responsibility for the safety of the public.

The provision of adequate ventilation is mandatory in most countries.

Never compromise with safety - fit a Flettner!

- Fumes and flammable gases can kill
- Excessive heat causes driver fatigue
- Condensation compromises all-round vision

The Flettner Slimline LPV

The Flettner Slimline™ Low-Profile Ventilator is the newest addition to the Flettner product range and proudly stands as the lowest ventilator in the world with the quickest and shortest installation time. The Slimline has been specifically designed for customers who deal with height issues such as roof-racks that need a lower ventilator to fit underneath it.

The new ventilator has a good balance between an aesthetically pleasing design and excellent functionality. Installation could not get any simpler with this model, it comes with four 3mm bolts that secure the shutter on the inside of
